Design Approval Certification for Aircraft and Airborne Equipment

1. This certification recognises the organisation's capability for the design, development and certification of the following products and services under contract with the Ministry of Defence:

- 1.1. **Control handles (Throttle Top and Stick Top, XY Thumb Controller and 4 Axis Controllers).**
- 1.2. **Switches, including high integrity switches, master armament safety switches, and dimmers.**
- 1.3. **Solenoids and transducers.**
- 1.4. **Control panels and indicators, including warning devices.**
- 1.5. **Electrical wiring for undercarriages.**
- 1.6. **Test equipment for the above.**

2. **CONDITIONS:-**

2.1. Where the aircraft structure is affected, or where there is installation, integration or modification of equipment or systems in an aircraft, any limitations prescribed by the aircraft design organisation for structure, aerodynamics, weight, centre of gravity, and systems (including software) must be respected. Designs shall not transgress such limitations without the written technical agreement of the aircraft design organisation, and/or the Integrated Project Team Leader (IPTL) for the aircraft concerned.
